

**PUBLIC NOTICE**  
**YOU HAVE A VOICE IN AIR POLLUTION CONTROL IN ARIZONA**

The Arizona Department of Environmental Quality (ADEQ) proposes to issue Air Quality Control Permit Number 1000161 to El Paso Natural Gas Company for operation of their natural gas compressor station located 6 miles East of Kansas Settlement Road on Azberger Road, Willcox, Cochise County, Arizona. This proposed Permit will regulate emissions of the following types of air contaminants: Particulate Matter, Nitrogen Oxides, Carbon Monoxide and Sulfur Dioxide.

EPNG provides natural gas transportation services for natural gas suppliers and end users throughout the southwestern United States, and owns and operates a large natural gas pipeline network. The Willcox compressor station is one of several such stations that provide natural gas compression to the pipeline network. Compression is needed to maintain enough pressure in the pipeline to keep the natural gas flowing, and is accomplished by two natural gas-fired General Electric 3142R-J regenerative turbine engines each driving a compressor unit.
